(57) Abstract : This present invention is an apparatus which is a customizable instant non-electric winding, all-purpose wearable notifier band that helps the user to keep-up their daily task with a reminder that can be set or timed easily just in a twist of the apparatus. Unlike electronic notifier which consists huge radiation risks and other timers which needs complication in manipulating, this helps the user in programming in just a twist of the band and takes not more than 5 seconds to program for notification. It consists of a winding timer(1) ,bands (3 and 4) male and female end-sockets (5,6) of the band ends, sliders(7) parallel male socket (12) and female sockets (13) of the bands (3 and 4) All-purpose simple sleeve notifier.(8A)Customising straps(6) and is a simple and customisable device made with eco-friendly and skin safe material and that comes with user manual and options according to the user's choice for instant reminder and notification.
