There is no one who is always happy and no one who is always sad. Life is a mixture of both joyful as well as sad events. Every day is a new day for us and we need to learn something from every one and every happening in life. The water in the running streams is clear and transparent, it doesn't catch moss, whereas the pool water is stagnated and dirty. To keep our life balanced we need to keep moving with various experiences of sunrise and sunset events in life. That's the beauty of this single and short life. The river water too faces hurdles and obstacles but it flows and keeps going. We have successfully ended one Semester. Let's view the campus activities besides exams.

Principal's Desk :

Gautam Buddha said - "Never See What Has Been Done Only See What remains To Be Done" -

Successfully we have accomplished the schedules for the odd semester classes as well as examinations for the academic year 2018-19. I hope that the semester break has given you a bit of time to be relaxed, recharged and ready to start a new semester. I welcome and value your positive energy, dedication and I look forward to working with you and our students to achieve another incredible and productive year ending. Our skilled and devoted Staff is already planning and preparing for our students. I am happy to note that we are emerging stronger when we are united. Let's join our hands together with the common goals of responsibility, hard work and a lofty aim to reach the heights.

- Dr. Sr. Mercy.
