

CH.S.D.ST. THERESA'S (A) COLLEGE FOR WOMEN

THE PROFESSION
THAT CREATES
ALL OTHER PROFESSIONS

Signing In :

Acharya Devobhava !!!

"If a country is to be corruption free and become a Nation of beautiful minds, I strongly feel there are three key societal members who can make a difference. They are the father, mother and teacher." -Dr.

APJ Abdul Kalam.

Let us thank God who called us to this profession that creates all other professions. After the parents, we the teachers occupy the responsible position to mode of behavior, etiquette and decorum of our attitude will impart a lot to our students.

It is said : "strike the iron when it is hot". Do not wait to strike till the iron is hot; but make it hot by striking....We believe in sharing and enhancing the level of knowledge by showcasing it through different angles and aspects and we promise to inculcate the seeds of becoming successful managers in each one of them. We shall glance through this month's news and views.

Principal's Desk:

International Literacy Day is observed on 8th September every year across the globe to promote and support the development of literacy skills. Universal access to quality education and learning opportunities throughout people's lives is the main motto of celebrating the International Literacy Day.

On 26th October 1966, UNESCO proclaimed 8th September as International Literacy Day to combat illiteracy and also to promote literacy as a tool that could empower individuals as well as whole communities. Literacy is the tool to eradicate ignorance which may lead individuals and communities to superstitious believes and practices and thus mar the real progress.

We are familiar with the Chinese proverb which tells us not to give any fish to a poor man, rather teach him how to fish and there you will have empowered him to live and lead a dignified life. Education plays a key role in our civilized life. Today schools and colleges try to impart both quality based and value based education. This will enable the children to learn not only the basics of the subject but also the values of life which in turn help them to face the challenges of life in the future.

Let us contribute our best towards enhancement of literacy and Education

– Dr. Sr. Marietta D'mello
