

3.3.1 Innovation Ecosystem

The Institute has a vibrant and robust system to promote innovations, creation, and transfer of knowledge by developing desirable human resources and to provide conducive environment for promotion of innovation and incubation. It has an excellent ecosystem for innovations including incubation center. The institute established IICell, STCEIS to facilitate innovative, flexible and economical solutions to various research related problems.

The policy of STCEIS aims :

To instill the spirit of innovation & Entrepreneurial Skill in students & Faculty. Creating a suitable ecosystem and environment to promote innovations and start ups for the faculty and students of Ch SD St. Theresa's college for women, Eluru. Conducting awareness programs to promote Innovation & Entrepreneurship, Outreach programs in the neighborhood, to design curricular Modules to encourage start ups and entrepreneurship, to accord mentorship and incubation model for potential start ups and to build partnership with industries and organizations in the district of West Godavari.

Seminars and workshops have been organized by different departments on entrepreneurship. Each department has a research club where students and faculties present their own work or other interesting work in the field of science periodically.

The central library of the College, with INFLIBNET facility is the main information resource centre for the researchers. The college publish an International, Inter-disciplinary journal, STC Scholars vision which provides a good platform for the faculty as well as students to publish their research works. The institution has made community projects mandatory for students at various stages to orient the students towards community through its newly developed curriculum framework.
